Location: Gurugram, India

Professional Summary

Full Stack Developer with 3.5+ years of experience building **scalable, high-performance web applications** using React.js, Next.js, Node.js, Express.js, and MySQL. Currently delivering **enterprise-grade, accessible UI solutions** at **Publicis Sapient** for the Verizon customer platform. Proven expertise in REST API development, reusable component architecture, CRM systems, production support, and Agile delivery.

Technical Skills

Frontend: React.js, Next.js, Redux, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, REST API Development

Databases: MySQL, MongoDB, Sequelize, Mongoose

Cloud & Tools: AWS (Developer Associate), Git, GitHub, Postman, CI/CD

Practices: Agile, Scrum, MVC Architecture, WCAG Accessibility, Performance Optimization, Responsive Design

KEY ACHIEVEMENTS

- Delivered **enterprise-scale reusable UI components** used across multiple customer journeys.
- Improved application stability by resolving production issues and performing root cause analysis.
- Built scalable full-stack CRM, LMS and job portal solutions from scratch.
- Optimized APIs and database queries for better performance and faster response time.
- Performed API testing using Postman and validated UI flows for production readiness.

Experience

Experience Engineer L2 – Publicis Sapient, Gurugram, India (Sept 2025 – Present)

- Developed reusable React.js components for a large-scale, customer-facing enterprise platform, ensuring performance and UI consistency.
- Implemented WCAG-compliant accessibility improvements across multiple UI modules.
- Resolved production defects and improved application performance in an Agile delivery model.
- Collaborated with backend, QA, and product teams for sprint-based feature releases.

Full Stack Developer – Alobha Technologies Pvt. Ltd., Noida, India (Jan 2023 – Sept 2025)

- Engineered a full-stack job portal using React.js, Node.js, Express.js, and MySQL with authentication and recruiter workflows.
- Built a transportation CRM with role-based access, dynamic dashboards, and workflow automation.
- Designed and integrated RESTful APIs for real-time data-driven features.
- Developed reusable UI components improving maintainability and reducing development effort.
- Modeled relational databases using Sequelize and optimized query performance.
- Fixed 40+ production defects and improved API response time by 30% on existing platforms.
- Actively participated in sprint planning, backlog grooming, and client demos in Agile environment.

Projects

Karlatoon – Job Portal

Tech: React.js, Node.js, Express.js, MySQL

- Developed end-to-end job posting and application workflow with secure authentication.
- Built recruiter dashboard for job and candidate management.

Flexichain – Transportation CRM

Tech: React.js, Node.js, Sequelize

- Implemented admin panel with role-based modules and operational reporting.

IndiaLearnX – Learning Management System

Tech: React.js, Node.js, Sequelize

- Developed multi-role system for students, teachers, and parents with controlled access.

Education

B.Tech (Mechanical Engineering) – Government Engineering College, Bharatpur (2015 – 2019)

Certifications

AWS Certified Developer – Associate

Full Stack Web Development – UpGrad

React.js & JavaScript – Great Learning Academy
